Neither Hanoi nor the Viet Cong replied directly at the press briefing today to questions about how Mr. Nixon's re-election might affect the remaining negotiations. Nguyen Thanh Le, the Hanoi spokesman, said only that "Vietnamese destiny is in Vietnamese hands" and did not depend on U.S. presidents. Ly Van Sau, the Viet Cong spokesman, remarked that the war already had gone on under four different U.S. presidents.

To Prevent Threat to Re-Election

To Avoid Truce Before Nov. 7

By Murrey Marder

-President Nixon never intended to put the draft Vietnam reace plan into force Oct. 31, one week before the election, according to sources inside the administration.

The administration, according to these sources, planned to play North Vietnam past Tuesday's election in secret bargaining, to complete the accord at a less hazardous date.

Reasons for this strategy, it is said, were: to prevent North Vietnam from exploiting a sudden preelection cease-fire; to avoid danger to the Saigon government of President Nguyen Van Thieu and, by no means least of all, to avoid risking Mr. Nixon's re-election. If the Vietnam peace plan had gone into effect on Oct. 31, as projected in the last of several shifting timetables in the draft accords, administration sources now acknowledge, Mr. Nixon would have been exposed to a "messy" situation during the critical week before the presidential

The cease-fire was bound to be less than 100 percent secure, for no cease-fire in Victnam ever will be inviolate, administration officials concede. In the teek before the U.S. election, it is said, Mr. Nixon would have been exposed, therefore, to the charge that he rushed into an insecure pact for political purposes and that the agreement was being

visibly breached. Charge of Duplicity

As a result, it is said, the President chose instead to expose himself to what he regarded as the lesser hazard of a charge of duplicity by North Vietnam. That charge did come, in North Vietnam's first disclosure of the summary of the nine-point peace plan on Oct. 26, when it evidently concluded that it had been outmaneuvered in its strategy for concluding an accord before the election, to pin down Mr.

North Vietnam charged on Oct. 26 that the United States three Thuy, the two principal North

Germanys. Separate Membership However, the treaty agreement calls for both German states to apply for separate membership in the United Nations. Since admission would imply that both are fully sovereign countries, Mr. Brandt requires the four-power

the treaty violates the constituin two weeks of negotiation, the four powers will "support the

for UN membership. But it then goes on to say that the four powers "affirm in this connection that this membership shall in no way affect the rights and responsibilities of the four powers and the corresponding, re-

German governments will formally take note of the declaration. Diplomatic observers say that, under international law, this will make the declaration a part of the treaty and enable Mr. Brandt to contend that it is binding on both governments. Despite this, however, there has been considerable question here

"TURNING POINT"—West German Chancellor Willy Brandt discussing All-German treaty at press conference yesterday in Bonn with State Secretary Egon Bahr on his right.

Rights Unaffected by All-German Treaty

Text of Big-4 Declaration Is Issued

By John M. Goshko BONN, Nov. 9 (WP) .- The World War II Big Four today

revealed the text of a declaration asserting that their rights in Germany as wartime victors are not affected by the decision of East and West Germany to establish normal relations. This declaration by the United

States, Britain, France and the Soviet Union was contained in a single, tongue-twisting sentence of 107 carefully chosen words. But, without it, the historic treaty initialed yesterday by the two Germanys as a means of colving their long cold-war

hostility could not have been concluded. To Chancellor Willy Brandt's West German government, it is an essential precondition for any formal relationship with East Germany. man Constitution forbids any Bonn government from recogniz-

ing the division of Germany as permanent. Bonn contends that final settlement of the German question can come only through a peace treaty with the four powers and that this imposes limits on the sovereignty of both

statement to counter charges that

The declaration, hammered out covers this point by stating that applications" of both Germanys

Israelis, Syria In Battles With Jets, Artillery

TEL AVIV. Nov. 9 (UPI).—The Israel-Syria border was the scene today of the flercest battle in the 27 months of the Mideast cease-fire. Artillerymen on each side fired thousands of rounds. Israeli pilots reported two Syrian MiGs shot down, while Damascus said that four Israeli jets had been knocked out of the sky.

The fighting, which lasted all afternoon, began with an Israeli air attack against two front-line Syrian Army posts and ended at dusk following a dogfight high above the Syrian desert. Israel said

that all of its planes returned safely from the midafternoon raid on the Syrian Army bases and from the pre-sunset dogfight. A military spokesman sald an Israeli soldier was killed and two civilians were wounded in the three-hour artillery duel along a 25-mile front, which Israel closed to civilian traffic pending further notice. The spokesman said the Syrian gunners concentrated their fire—totaling between 2,000 and 3,000 rounds—on the settlements of Ramat Magshimim and Fin Sivan on the Golan Heights.

Syria, in claiming four "kills" of Israeli aircraft, admitted that two of its own planes were Israel said its air raid against

the Syrian Army posts was followed by the Syrkans' artillery offensive, and this prompted counterfire by Israeli artillerymen. Then came the pre-sunset doglight in the sky, Israel said. Villages Damaged The military spokesman here

ments of Ramat Magshimim and Ein Sivan took shelter in bunkers during the artillery duel-Later, he said, they emerged to find "significant damage" to their homes, livestock and barns. U.K. Curbs The Flow of Bank Funds

\$550 Million Frozen In Fight on Inflation

By Alvin Shuster LONDON, Nov. 9 (NYT).—The British government today bolstered its 90-day freeze on wages and prices with a new anti-inflation

move to limit growth in the money supply.

The announcement by the Bank of England was made after several politicians and economists had expressed concern that the country's money supply was significantly feeding inflation, now running at close to 8 percent a year. Some argued that limits on the amount of money circulating in the economy were more important than the "standstill"

on wages and prices. The action today, described by an official as "fine tuning," came in the form of a call to banks for "special deposits" to be frozen with the Bank of England. Offi-cials estimated that about \$550 million would be drained from reserves of banks and finance

The move also could produce higher interest rates—charges which are free of controls under the wage-price freeze.

Bankers withheld comment on that possibility, saying they were studying the possible results of government decision to the special deposits.

Since announcing the curbs on wages, prices, rents and dividends on Monday, government officials have argued that they had no alternative. They asserted that reliance on a restrictive monetary policy would not have been enough to reduce inflation, and, in fact, would have been counter-

productive. 'Cost-Push Inflation'

Anthony Barber, Chancello: of the Exchequer, said in the Rouse of Commons that a money-supply curb, by itself, "does not get at the root of the kind of cost-push inflation which we have in this country and that it can work only by reducing activity and keeping men out of jobs." He added, however, that the government would move to moderate the growth of the money supply in relation to the wage-price freeze. The decision announced today was in line with that official view. Spokesmen said the special deposits were aimed at keeping the "status quo" in the supply of money rather than bringing about

a net drop in the amount avail-

able for lending.

They explained that, if the Bank of England had not acted, While the official announcement spoke of the fossils as 2.5 bank liquidity would have jumped million years old, Mr. Leakey told newsmen the skull was "more significantly in December. This is partly because one of the big than 2.6 million years old, algovernment loans is due to bethough how much older we cancome a reserve asset for the Along with the skull, Mr. banks, thus increasing their ability to lend.

Officials also made the point that the move, which they said was carefully shaped to conform to a 5 percent growth rate, was in accordance with the view of Common Market finance minis-

The pound lost ground again today, falling 0.65 of a cent to \$2.3450.

The money-flow curtailment was reflected in the Stock Exchange, where shares in banks and financing companies stumbled lower. About 300 banks and finance firms will be affected by the call for special deposits. Half the deposits are required on Nov. 30, the remainder on Dec. 14.

Dec. 4 Set for Start Of Calley's Appeal

WASHINGTON, Nov. 9 (AP).-The Army Court of Military Review will open hearings Dec. 4 on 1st Lt. William Calley's appeal of his murder conviction in the My Lai massacre case.

The hearing is part of the long procedure under which Calley's conviction is reviewed up through the chain of command. He is under house arrest at Fort Benning, Ga., awaiting the outcome of his appeal from a courtmartial conviction for the murder of 22 South Vietnamese civilians at My Lai in March, 1968.

300-Pound Bomb Explodes In Belfast Security Area

BELPAST, Nov. 9 (UPI).-A 300-pound bomb exploded in the center of Belfast today, sending shoppers scurrying for cover the

Gun battles broke out across the provincial capital and at least three women, two soldiers and one gunman were wounded by gunfire in five areas of the city. a military spokesman said.

The burst of violence followed the capture of the suspected commander of the 1st Belfast Battalion of the Irish Republican Army's Provisional wing and four of his staff officers.

The bomb exploded in a multi-

Israel, Syria In Major Air, Artillery Duel

six bombs and headed home. No Israeli losses were announced after that clash.

By nightfall today, the Israeli military spokesman said, the front had fallen into a tense quiet. He said that at 12:30 p.m. to-

day Israeli planes raided two Syrian Army posts through which Arab guerrillas passed on night raids against Israeli settlements on the Golan Heights.

Two Ground Forays

One raid, Tuesday night, involved the planting of a mine that wounded one civilian tractor driver, the Israeli spokesman said. In the second, a predawn mission today, Israeli troops foiled an attempted ambush against them by 18 guerrillas using mortars and bazookas, the aide here

Almost three hours after the Israeli Air Force's counterstrike, he said the Syrians opened up with their 122-mm and 130-mm field guns, drawing return salvos from Israeli artillery.

The command said its warplanes went to work an hour later on four Syrian front-line posttions, two artillery bases about six miles from the front and on the surface-to-air missile base 12 miles to the Syrian rear.

The spokesman, a senior officer, said that what happens next depends on whether Syria decides to curtain the activities of Arab guerrillas against Israel and Israelis abroad.

"Our approach to the problem is clear," he said, "As long as the Syrians keep the border closed, we will do nothing. If they open the border or open fire, we will do something

"The Syrians must ask themscives what they may suffer tomorrow if they continue to let the terrorists cross their border."

Soviet Jew Gets Army Exemption

MOSCOW, Nov. 9 (UPI).-Soviet authorities today released a 22-year-old Moscow Jew and would-be emigrant to Israel from psychiatric hospital and told 'im he would not have to serve in the army after all. Andrei Dubrov told newsmen

that a medical commission examined him and pronounced him mentally until for military cervice. He said he did not know whether authorities would return the end visus for Israel granted la t menth to him and his mother and later rescinded. Mr. Dubrov was given his call-

up papers shortly after he and his mother were stripped of the He briefly went into hiding but was arrested at a friend's home and put into the hospital.

F-5s 'Borrowed' From Iran Reach South Vietnam SAIGON, Nov. 9 (UPI).-The

U.S. Air Force has completed de-livery to South Vietnam of F-5 aircraft "borrowed" from Iran. About 30 of the F-5 fighterbombers, the sources said, may have arrived from Iran aboard huge Air Force C-5A transport planes. The planes can carry up to three F-5s, the sources said. . Altogether, the sources said, Iran, South Korea and Taiwan are expected to "loan" South Vietnam 120 F-5s, Delivery of sircraft from other countries is expected to require five to seven days more.

The United States is bringing in different types and amounts of war material to the South Vietnamese armed forces ahead of any cease-fire because the proposed agreement would limit arms deliveries to replacement of exist-

No Major Hanoi Units Cross DMZ, U.S. Sources Report

By Michael Getler

SAIGON, Nov. 9 (WP).-While same time as the full dimensions Hanoi continues to push military supplies down through North Vietnam and along the Ho Chi Minh Trail in Laos, U.S. intelligence sources here report there has been "no significant movement of major units" across Demilitarized Zone into South Vietnam recently.

These sources discount reports last week from Washington which claimed that Hanoi had sent a fresh armored regiment with about 100 tanks and 100 armored personnel carriers across the buffer zone into South Vietnam's northernmost province. According to intelligence sources

here, a North Vietnamese armor-ed unit, which appears to be regimental size-normally about 3.000 men-or smaller and contains 72 tanks, has moved southward within North Vietnam, but its current position is still "well above" the Demilitarized Zone, News accounts from Washington last Saturday, citing senior U.S. military advisers as the source, reported that the armor had already moved across the DMZ into South Vietnam's Quang

Waterloo Scene on £5 Notes

LONDON, Nov. 8 (Reuters).-Pictures on a banknote showing British troops "blowing the French Army to blazes" at the battle of Waterloo were not suitable for a country joining the Common Market, it was claimed in the House of Lords today. Labor member Lord Leatherland asked: "Should we not do everything we can to insure the best possible relations with the French people?"

He asked the government to agree to change the believose

design on the five-pound note. "It is somewhat tactless to print on the back of the note a picture of British gunners blowing the French Army to blazes and accompanying it with a large portrait of the Duke of Wellington," Lord Leatherland said.

But Still Raids N. Vietnam

U.S. Diverts Its Air Effort, **Doubles Strikes Over Laos**

SAIGON, Nov. 9 (AP).-With, fected to the Viet Cong set off bombing halted above the 20th parallel in North Vietnam, the United States has shifted much of its air effort to other parts of Indoching and has doubled the number of strikes in northern Lacs in support of government troops there, senior U.S. officials disclosed today.

For the seventh successive day, U.S. B-52 saturation bombers kept up heavy strikes on both sides of the Demilitarized Zone in continuing efforts to blunt a pre-cease-fire North Victnamese supply buildup.

Nearly 70 B-52s unleashed more than 2,000 tons of bombs on Communist positions in the southern panhandle of North Vistnam, in the Demilitarized Zone, itself and between the buffer zone and Quang Tri, 19 miles to the south.

Typhoon Pamela

For the second day in a row. however, Typhoon Pamela cut into strikes by smaller tactical fighter-bombers over North Viet-nam and only 50 were reported in the southern panhandic yesterday. On Tuesday, only 20 were

In South Vietnam, a U.S. Marine Corps A-4 Skyhawk blew a tire and crashed in flames on takeoff from Bien Hos. Air Base, the U.S. Command said. The pilot was not hurt. Informants in Da Nanz 58id that the heavy strikes were

undertaken after many new sightings of North Vietnamese vehicles, trucks, tanks, armored personnel carriers and artillery In the last seven days, the B-52s have flown more than 400

wikes along the northern frontier, dropping more than 12,000 tons of bombs on Communist supply points. The senior U.S. officials said that the bombing halt above the 20th parallel imposed by Washington last month during critical

peace negotiations limits air strikes only geographically and not in numbers. Dry-Season Offensive They said that additional air strikes were being made in the Saigon region and that the air effort had been doubled in the Plaine des Jarres region in northern Laos, where North Vietnam

has launched its dry-season of-Both B-52 heavy bombers and smaller tactical fighter-bombers are being used to support the

Lactian government.
Radio Handi claimed that another F-111 fighter-bomber had been shot down over North Vietnam Tuesday. A broadcast monitored in Hong Kong said that the swing-wing plane had been shot down over Nghe An

The North Vietnamese radio charged again that American air strikes in South Vietnam were inflicting severe property losses. It said that artillery and air strikes including B-52 bomber raids last month killed or wounded many civilians and destroyed more than two-thirds of the people's property and crops in

one region north of Saigon. The Saigon Command reported that North Vietnamese and Viet Cong attacks across South Vietnam during the 24-hour period ending at dawn today had dropped by about a third over recent days to 65, the lowest number since Oct. 19.

But North Vietnamese forces ramed about 1,000 artillery, rocket and mortar shells into government positions in and around Quang Tri. This was significant because it marked the first time in several weeks that the North Vietnamese expended more than 500 shells in one day, an indication that they are being resupplied.

Ammonitien Dump Blast Explosions ripped through a South Vietnamese ammunition dump on the edge of Da Nang for six hours today. Fleid reports said that 2,750 tons of ammunition were destroyed. Small arms ammunition stores covering an area the size of three city blocks had been kept at the dump. Two South Vietnamese soldiers were reported wounded in the explo-

sions. First reports said the dump had been hit by Communist fire, but later indications were that the blasts were set off in an accident

or by some other cause. Parther north, a South Vietnamese airborne unit's fuel depot was destroyed by fire and 6,000 liters of gasoline and 2,500 liters of oil were lost. The cause of the fire was unknown. The depot was one mile southwest of My

News Analysis

Democrats Strong Despite Debacle

By Haynes Johnson WASHINGTON, Nov. 9 (WP). —No political party has ever been dealt such a devastating presidential defeat and yet-emerged in such a strong position

as the Democrats. Perhaps the most remarkable aspect of the 1972 election centers on the relative strengths and weaknesses of the two major parties. In party terms, as distinguished from personal factors at the presidential level, the Democrats remain the solid political majority.

The Democrats thus face the future with at least as much as-surance as the Republicans. But they also face serious problems —problems over ideological approaches, national leaders, party structure and philosophy, and the shattering, in the presidential race, of the old winning coalition based on big city voters, working people, the ethnic groups, the small farmers and the once Solid

They must reconcile, if they can, the Wallace wing on the right, the - Kannedy-McCarthy-McGovern wing on the left, the George Meany-Richard Daley group of pragmatic regulars in the middle, and attract back the traditionally Democratic groups of Roman Catholics, blue-collar that defected so notably at the

national level on Tuesday. In the end, their presidential candidate held on to only one major group that has helped the Democrats capture the White House in the recent past—the blacks. As expected, blacks in the big city centers supported Sen. George McGovern by an estimated 4-to-1 margin. But even the black vote cannot be taken for granted.

Not-So-Solid Blacks

One of the more striking facts to come out of the Tuesday results deals with the performance of black middle-class voters, as compared with blacks in the inner cities. While the inner city vote remained solid for Sen. McGovern, it is es-timated as much as a third of the more affluent black voters went for President Nixon.

At this point, only one Democratic figure seems able to appeal to so many disparate factions: Sen Edward M. Ken-

In voter surveys for The Washington Post this year, Sen. Kennedy clearly emerged as the strongest potential Democrat in strongest potential Demotata in 1972 and beyond: A Harris Poll released yesterday shows Sen. Kennedy beating Spiro Agnew by 51 to 43 in a hypothetical president of the strongest process and the strongest president of the strongest presid dential trial heat in 1976.

Probably next in national prominence among the Demo-crats is Sen. Walter F. Mondale

Schmitz, Spock Fare Badly in Popular Vote

WASHINGTON, Nov. 9 (UPI).

Four years ago, Alabama Gov.
George C. Wallace captured 13.5 percent of the popular vote in his third party bid for the presidency, but minority party candidates fared much worse this year. Lame-duck California GOP

Congressman John G. Schmitz took up Gov. Wallace's American party standard, but he received only about i percent of the popular vote. Even so, Mr. Schmitz ran the strongest of the nine "other" candidates for Presi-

the left, People's party candidate Dr. Benjamin Spock failed to win even the 1 percent of the vote he hoped for in the 10 states in which he was on the ballot. Dr. Spock said during the campaign his goal was not to win large numbers of votes but to build the framework for the gradual development of a major

party on the left. "Our test is not in this election but in the months shead," Dr. Spock said. "We're not discouraged by the vote we got. If you really stop to think about it, we only carried two less states than

of Minnesota. After he won a substantial re-election victory Tuesday night, his Minnesota colleague, Sen. Hubert H. Humphrey, gave him a glowing boost for the presidency on national television.

"I see in Sen Mondale the kind of person who can bring together the forces necessary for victory—the youth, the farmers, the elderly," Sen. Humphrey said. "He's won an amazing victory.

And it takes a man like Sen.

Mondale to put the party back on the victory trail."

For Democratic presidential prospects, the question is not what forces are necessary for victory. The question is what have the voters been saying they want? In other words, what positions are most acceptable to most people? Where is the ideological heart of America now? And how can the Democrats best move from their success at local and state levels into national vic-

The 1972 presidential campaign was characterized to an unusual degree by an ideological cast. Sen. McGovern was perceived by many voters as too radical in his positions on such questions as amnesty, abortion and legalizing marijuana. His positions on tax and welfare reform also struck many voters as too extr me.

In the post-mortem comment on the election, Sen. McGovern's ideological views are being cited by various Democrats as responsible for his defeat. Gov. Wallace, John Connally, Philadelphia's Mayor Frank Rizzo and numerous others are offering similar opinions. Basically, they are saying the Democratic party permitted itself to be taken over by ideologues not representative of their party's traditions and the wishes of the American majority.

"I warned them at the Democratic conventiton they were go-

Vacation Trip To Caribbean By McGovern

WASHINGTON, Nov. 9 (UPI).
—Sen. George McGovern and his
wife, Eleanor, went to the Virgin Islands today to unwind from his

campaign for President.
After months of being surrounded by Secret Servicemen and aides, and flying on charter aircraft, Sen. McGovern stood in line like any other tourist at Dulles International Airport to buy his ticket to San Juan, Puer-

From San Juan, he will go to St. Croix on a charter flight arranged by his host, Henry Kimelman, who has helped develop the Virgin Islands.

A few Secret Servicemen accompanied the senator to the airport. If was the last time he was to have Secret Service protection. Asked by a newsman what he did last night, his first free night

after the campaign and election,

Sen. McGovern replied, "Just took At the airport, he ran into Sen. Edward W. Brooke, of Massachu-setts, who also was headed for a vacation in the Virgin Islands, in St. Martinique. They exchanged pleasantries and Sen. McGovern

said that he would drop over to

visit Sen. Brooke.

Nixon Re-Election Saluted by India

NEW DELHI, Nov. 9 (AP).— Prime Minister Indira Gandhi has sent a message of "warm felicitations" to President Nixon on his re-election and said she hoped that "during your fresh tenure of office friendly relations between our two countries and peoples will be further strength-

"I send you our best wishes for your personal health and for the prosperity and well-being of the friendly people of the United States of America."

Building in Washington Remove Artifacts,

Government Papers

Indians Quit

WASHINGTON, Nov. 9 (AP) -Protesting Indians who seized the Bureau of Indian Affairs building a week ago have returned it to the government, with the offices somewhat the worse for wear.

The last two dozen Indians filed out last night. Five hun-dred Indians had occupied the building at one time.

The Indians took with Indian artifacts that had been on exhibit and BIA documents that they claimed contained evidence that public officials have deprived Indians of their property for many years.

The Indians caused more than \$500,000 damage, government of-ficials said today. They estimated that employees will not be able to return to work until at least a week from tomorrow. Investigators found hundreds of

thousands of letters and other official documents several inches

deep on the floors.
Officials said structural damage
of \$250,000 includes the cost of repairing holes in the walls. smashed windows and ruined plumbing and removing grafitti on the walls. A total of \$280,000 was estimated to be lost in typewriters, rugs, office furniture and other equipment.

A written sign over the build-ing's auditorium said:

"I do not apologize for the ruin nor for the so-called destruction of this mausoleum, for in building anew, one must first destroy the old! This is the coming of a new era for the North American native people! When history re-calls our efforts here our descendants will stand with pride knowing their people were the ones responsible for the stand taken against tyranny, injustice and the gross inefficiency of this branch of a corrupt and decadent

As the Indians left, they were given money to help them return home. Hank Adams said a \$66,000 transportation fund was obtained with the help of the White House.

Indian leaders said a major accomplishment of the seven-day occupation was the prospect the BLA would be dismantled. A special task force to review Indian we had convention procedure that needs was agreed upon during negotiations between White House aides and an Indian representative Tuesday night.

Goals Outlined for 2d Term

diction I made has come true.

I want to see the party taken back and given back to the aver-

man," Gov. Wallace said.

"McGovern misread the Amer-

ican people. He talked about rev-

olution and radical change and

that's not what they wanted. In

the 1960s, they witnessed mas-

sive social and political change.

They've been overwhelmed by

it; they couldn't be assimilated

by it. The people weren't looking

bility . . . Given a little time, the

Democrats will trim their sails

and move with it. Now that they

know where the winds are blow-

ing, you can expect them to tack

to the right," Mr. Connally said.

the Democratic party and, there-

fore, lost the election. What caus-

ed it? I think you have to say

was not really reflective of the

Democratic party nationally." Gov. John Gilligan of Ohio said.

"The Democratic nominee lost

Nixon to Trim Government, Foster Self-Reliance in U.S.

(Continued from Page 1) ments to limit defensive nuclear weapons and some offensive ones.

• The Middle East "will have a very high priority." U.S. policy toward Cubs will not change unless Cuban Premier Fidel Castro changes his attitude.

● He will "shuck off" and "trim down" social programs set up in the 1960s that he considers major failures largely because they just 'threw money at the problems." • "There will be no solutions of problems that require a tax in-

"I am convinced that the total tax burden of the American people, federal, state and local, has reached the breaking point. It can go no higher."

• "I intend to continue to appoint conservative judges to the courts; not reactionary judges but men who are constitutional conservatives, because the trend had gone too far in the other direc-

 Some healthy "friction, competition" between presidential ad-viser Henry A. Kissinger and the State Department, and adviser John Ehrlichman and the domestic agencies is going to continue.
"That is the way it is going to have to be with them or their

 Political campaigns are too long and they "bore people to death." Shorter campaigns would be better for presidential candidates "because we don't want to wear our people down to a frazzle before they take on the awesome sibilities of this position." Mr Nixon added, however, that he is very pessimistic about

whether campaigns actually can be shortened as a practical matter, because they are so compet-Mr. Horner wrote that, Mr. Nixon was perhaps most emphat-

ic in asserting, "I honestly believe that government in Washington is too big and it is too expensive." "With a puritan fervor he has seldom shown in public," Mr. Horner also said, "Nixon seemed to be closing the door on a time in which he felt the nation had been pampered and indulged, leaving its character weakened."

saying: "The average American is fust like the child in the family. You give him some responsibility and he is going to amount to something. He is going to do some-If, on the other hand, you

He quoted the President as

make him completely dependent and pamper him and cater to him too much, you are going to make him soft, spoiled and eventually a very weak individual."

Mr. Nixon said, "Nothing could be further from the mark" than suggestions that, without any reelection problem ahead, he might now be more free to advocate vast new social programs.

Nixon Vote Chief Hired as Lobbyist By Aircraft Firm

EAST HARTFORD, Conn. Nov. 9 (UPI).—Clark MacGregor. who managed President Nixon's re-election campaign, was named yesterday as a vice-president United Aircraft Corp.; the country's eighth-largest government contractor. He will act as liaison between the firm and the government, the company said. Mr. MacGregor, who served 10 years in the House of Representatives from Minnesota and headed the Committee for the Re-Election of the President, will be based in the company's Washington office, United Aircraft

The company hat "become increasingly concerned over the broadening gap that has occurred in recent years between the business world and the public sector," United said. "We have felt that we needed expertise to help us participate in establishing effective communications between these two important segments of our society." United Aircraft, 19 other man-

ufacturers and their trade association, Manufacturers Aircraft Association, Inc., were named in an anti-trust suit filed by the Justice Department in March. The government allexed the defendants had restricted or eliminated competition by agreeing to pool and cross-license patentable inventions for the production of aircraft and parts.

Breaking Silence on Contest

Peking Daily Reports Nixon's Re-Election

By John Burns

C The Globe and Mail, Toronto PEKING, Nov. 9.—The People's Daily today carried a brief factual report on the re-election of President Nixon, breaking the silence it had maintained on the presidential contest throughout the campaign.

A New China News Agency report, datelined Peking, was featured among the selection of foreign news stories which the Communist party newspaper carries on page six each day.

In 390 characters—the equivaient of about three newspaper paragraphs in English—the paper gave a breakdown of the popular vote received by the two candidates as well as the votes received by each in the Electoral College. The story also gave the first explanation of the presidential election system that the People's Daily has printed, pointing out in factual terms how the

Electoral College works. The straightforward treatment of the story contrasted with the attitude taken by the Chinese press during past presidential con-tests, when the election system

considered.

was described as a farce designed would keep the commitments he to hoodwink the American peomade at the end of his visit to

Carried by Locals

In addition to appearing in the People's Daily, which has a circulation of between three and four million and is distributed throughout the country, the story was printed in local newspapers in Peking and other major centers.

Although party cadres had been kept in touch with the campaign through foreign news agency reports printed in a daily bulletin called Reference News, it was the first time that the Chinese manin-the-street had been informed that a presidential election was in progress.

Although he now knows the resuit, there was nothing in yester day's report about the policies of the two candidates, so the Chinese masses may never learn of Sen. George McGovern's differences with Mr. Nixon on such issues as Victuam and recognition of

As the election results came in here, it became known that Chinese leaders faced the prospect of Mr. Nixon's re-election confident that the President

China in February. Sources who have spoken to high-ranking officials within the last few days report that they expressed a belief that the commitments made by the United States in the Shanghai communique would be kept, despite the removal of electoral pressures

from Mr. Nixon. The commitments spoken of by the officials apparently include the piedge that all U.S. troops in Indochina ultimately will be withdrawn, with a parallel commilment to progressively with-draw all U.S. forces and military installations from Taiwan

Black Sailors On Carrier to Get Civilian Lawyers

WASHINGTON, Nov. 9 (AP).-The Navy has agreed to delay courts-martial for about 20 black sailors on riot and assault charges until after the carrier Hawk returns to San Diego from Vietnam waters and the sailors can obtain civilian lawyers, the Pentagon an-

The NAACP and a number of other black organizations had asked for such a delay, contending the black sailors would not receive adequate legal representation if the trials were held while the ship was still at sea.

Pentagon spokesman Jerry W. Friedheim told newsmen that Secretary of the Navy John Warner would meet with civil rights groups representatives and that Mr. Warner "will be assuring them that all protections of the Uniform Code of Military Justice will be available to the defendants, including civilian

The Kitty Hawk is due back in its San Diego homeport around

The Navy said a total of 27 sailors, all black, have been charged in the wake of a major brawl aboard the Kitty Hawk in October when 46 people were injured, 40 of them white and six

Mr. Priedheim said some de-fendants "did not wish to be represented by civilian counsel" and trials were under way at sea for about six sailors.

Lie Detector Test Accepted As Evidence in Calif. Trial

TORRANCE, Calif., Nov. 9 (UPI).—A California judge has accepted a lie detector test as evidence, saying scientific tests now have shown the machines to be so accurate that old rules against them in courtrooms should be changed.

The unprecedented ruling was issued yesterday by Superior Court Judge Allen Miller in the case of a man charged with the possession of marijuana.

Judge Miller made his ruling in the case of Raymond Cutter, who was arrested at Los Angeles International Airport and took a lie detector test to show that the evidence was illegally seized. It showed he was truthful and the judge ruled the evidence could not be introduced.

The judge conceded that California appellate court decisions have held that the findings of a polygraph test were not sufficiently certain, by scientific standards, to be admitted as evidence. Most U.S. courts, local and federal, will not accept lie detector tests as proof that a person is or is not telling the But, the judge said, courts are

greatly in need of some way to determine when defendants and witnesses are telling the truth, and the lie detector has now reached an acceptable level of ac-

The trial verdict may depend on credibility, he said. "Perjury is prevalent and the oath taken by witnesses has little effect to deter false testimony. The principal role of the trier of fact is the search for truth and any reasonable procedure or method to assist the court in this search should be employed."

The court decisions against admissibility of polygraph evidence "should be reviewed and re-evalusted in light of the current scientific knowledge on the subject,"

Ambassador Riyashiy Ben-Horin was called home last Thursday to protest the release of the three Arab terrorists who surviced the attack on the Israeli team at the Munich Olympics. They were freed to ransom a West German airliner hijacked by Arab terrorists. Chancellor Willy Brandt sent Premier Golda Meir a message yesterday apologizing for the strained relations between the two countries and pledging his government to the fight against

terrorism.

Begin Talks on Free-Trade Pact

BRUSSELS, Nov. 9 (UPI) .-The European Economic Community and Norway today began exploring a free-trade agreement to replace full market membership rejected by the Norwegian electorate on Sept. 24.

Norway's chief negotiator, Jens Evensen, special ambassador to the Common Market, told newsmen the referendum had placed Norway in a new position, but the problems remained the same.

He said he was mandated to negotiate an agreement of the kind the market concluded with But he said he could not indicate at this stage whether it also would include a clause allowing later revisions.

He said there was no question of negotiating associate membership enhancing the possibility eventual full membership.

Obituaries

Author Yuri Galanskov, 33, **Imprisoned Soviet Dissident**

MOSCOW, Nov. 9 (AP).-Russian writer Yuri Galanskov, 33. has died after a cancer operation at the Soviet labor camp where he had been serving a seven-year tence for "anti-Soviet actividissident sources reported today.

The young author had been suffering from chronic stomach ailments before he was arrested in January, 1967, for distributing "Phoenix," an underground typewritten magazine of his poems and short stories.

The sources said Mr. Galanskov died Saturday at Camp 3 of the Potma Prison complex, 280 miles southeast of Moscow. Camp 3 is the hospital section of the comwhere more than 2,500 political prisoners are working off hard-labor sentences.

Mr. Galanskov, the sources said, repeatedly had refused to submit to an operation "because he didn't trust the doctors." He was operated on last week when his situation became critical, they

Mr. Galanskov's 1968 trial was the second major court action against Soviet disadent writers by the regime of Communist party leader Leonid I. Brezhnev. It was indirectly linked to the first such action, the trial of writers Yuli Daniel and Andrei Sinyavsky, who received lengthy labor-camp terms after their works were published in the

Mr. Galanskov went on trial with his close friend, author Alexander Ginzburg, who had written the "White Book," a detailed account of the secret proceedings of the Daniel-Sinyavsky trial.

Mr. Ginzburg was sentenced to five years at hard labor. He was released recently.

Mr. Galanskov was first arrested in 1961 for distributing his first edition of "Phoenix." He was put in a psychiatric prison hospital for several months. In 1965, he staged a solitary sit-down demonstration in front of the American Embassy in Moscow to protest the U.S. intervention in the Dominican Republic.

During his five years and eight months in the Potma complex, Mr. Galanskov was sent numerous times to the hospital section for his stomach illness.

Appeals to the Soviet leadership by Russian and foreign writers for Mr. Galanskov's were all met with release silence. In October, 1970, shortly after Russian writer Alexander Solzhenitsyn was awarded the Nobel Prize for Literature, Mr. Galanskov and 11 other political prisoners smuggled a congratulatory message out of the camp.

"Unfortunately," they wrote, "barbed wire and the submachine guns in the hands of insensitized youths deprive us of the opportunity to express to you in person all the depth of our admiration for your courageous work."
"We are certain," the letter

concluded, "that as long as writers like you exist the teethsmashing, bone-crushing blow' will not become the sole form of contact among men."

Harley A. Dorman MARSHAIL, Mich., Nov. 9 (AP).—Funeral services will be

held tomorrow for Harley A. Dorman. 87, credited with inventing the vertical-take off aircraft, the first automobile turn signal and the external sun visor for cars. Mr. Dorman died Tuesday in a nursing home here.

5.06-Inch Deluge Hits N.Y. in 18-Hour Period

Radio Beam Will Guide Motorists Arriving at Los Angeles Airport

LOS ANGELES, Nov. 9 (UPI).—Beginning tomorrow, both cars and airliners can be radio-guided into Los Angeles International Airport.

Under an experimental program, motorists approaching the airport will be able to pick up on their car radios instructions broadcast from beneath the pavement.

The broadcasts will give drivers traffic and parking conditions, alert them to traffic jams, estimate the length of time tieups will last and provide other information. Beginning several blocks from the airport on main ap-

proaches, a motorist can pick up the signal by dialing 530 on the AM radio band. The information is broadcast into 15,200 feet of tri-axial cable buried beneath the center of approach roads. The 10watt signal carries only 130 feet and will not interfere with commercial radio broadcasts.

The system was installed in a \$250,000 experiment under license from the Federal Communications Commission,

Amin Tells Remaining Asians To Quit Isolating Themselves

KAMPALA, Nov. 9 (Reuters) -pulsion of about 40,000 Asians from Uganda is now almost complete, said here today those allowed to remain in the country must stop isolating themselves in their own communities.

He was speaking at Kololo airstrip, one of the special census centers set up here where Asians lined up to be counted.

In another move today, President Amin announced that the border with Tanzania would be reopened on Saturday-two days earlier than originally planned. The border closure was announced on Monday as a precau-

tionary measure in advance of

President Amin's deadline yesterday for the expulsion of the At the census center this morning, only about 20 Asians waited outside, but two hours later when President Amin arrived, the line

stretched for more than 100 yards. Warns on Money

President Amin said Asians who wished to stay in the country must become "proper Ugan-dan citizens," and he warned them against sending money out of the country illegally.

Holding up a bunch of letters President Amin said each had been intercepted by security forces and all had contained money which was being smuggled out of Uganda.

The president had exempted from his 90-day ouster deadline,

Ex-Hell's Angel Goes Berserk in California Jail

UKLAH, Calif., Nov. 9 (UPI) .-George Wethern, who has agreed to inform on the Hell's Angels, jabbed pencils into his eyes and began choking his wife in their Mendocino County Jall cell, the county sheriff reported yester-

Wethern, 33, poked holes in the inside corner of both eyes and in the skin above the eveballs in his effort to blind himself. But he suffered no permanent damage to his eyesight, Sheriff Reno Bar-tolomie said. His wife, Helen, 29,

was not hurt. "He just went off his rocker," the sheriff said.

Wethern and his wife own a 153-acre ranch near Ukiah where three bodies were unearthed last week. Authorities described it as a "Hell's Angels' burying ground." Four members of the motorcycle gang were arrested and three others are being sought in the slaying. Wethern and his wife agreed to

tell law officers about the illegal activities of the Angels in return for immunity from prosecution on narcotics and other charges.

which expired at midnight last President Idi Amin, whose ex- night, those Asians holding key professional jobs in Ugarda and others who hold citizenship of the East African country.

Believed to total about 8,000 persons, the exact number in these two categories is not yet known. To find out, the Ugandans had ordered all remaining Asians to report today to the census centers for a physical bead-count.

Germans Charge Policeman in

MacLeod Slaying STUTTGART, Nov. 9 (AP) .-

A 35-year-old West German policeman has been charged with negligent manslaughter in the gunshot slaying of Scottish businessman, Tain MacLeod, 34, during a search for members of a West German terrorist gang, Stuttgart authorities reported yes

The policeman, Wolfram Koglin, was leading the June 25 search of Mr. MacLeod's Stuttgart apartment when he fired two machine pistol shots through a bedroom door behind which the Scotsman was standing authorities said. One of the bullets struck and killed Mr. MacLeod.

Police were conducting an early morning search of the apartment because they believed it was being used as a hideout for members of the Baader-Meinhof gang, who are blamed for a wave of terrorist bombings last spring and other acts of violence in West Germany.

Investigations have shown that Mr. MacLeod had no connections with the gang, most of whom are under arrest in West Ger-

Animal Disease Threat in Europe

ROME, Nov. 9 (Reuters) .-Foot-and-mouth disease is again seriously threatening Europe following outbreaks in Hungary, Romania, Yugoslavia and the Soviet Union, a spokesman for the United Nations Food and Agriculture Organization (FAO) said to-

FAO blamed international trade in animals for the spread of the disease in Europe. "The continuously growing de-

mand for meat products makes it very difficult for the importing countries to exclude completely the affected countries from their markets, and this carries potential risks at a time when the disease is still spreading," FAO

Flyby Homa' from Europe to Iran Afghanistan, Pakistan al

The 'Homa', legendary bird of Ancient Persia (now Iran), is said to bring good fortune to all who catch sight of it. You will find its majestic profile on the tailplanes of every Boeing in Iran Air's all-jet fleet: 707s and 727s for our international flights; 737s for servicing our 17 destination network in Iran itself 'Homa' flights are conveniently

timed from major European cities to Istanbul, Tehran, the Persian Gulf - then on to Kabul, Karachi and Bombay. And next year our services will extend to

China and Japan. There are many attractive rewards for flying by 'Homa'. The food is always deliciously fresh (never frozen). The

hostesses are charming and attentive. The

pilots are specialists in European, Middle East and Far Eastern routes. But, best of all there's the welcome from the whole Iran Air family who keep up the national tradition for hospitality which goes back thousands of years.

The Victory...

Nixon's re-election victory is its uniformity. Not since President Roosevelt's sweep of all but two states in 1936 has a national candidate attracted support so clearly in every region and from virtually every segment of the voting population.

The Nixon majorities were greatest in the South but the million-vote margin in New York and the sizable victories in 49 of the 50 states were equally impressive. That contrasts with the Johnson landslide of eight years ago when the Deep South went counter to the trend in the rest of the nation. Mr. Nixon held his own among young voters and fared really badly only among black voters and the very poor.

The only defect in the President's remarkable political achievement was the relatively poor turnout, Unlike Gen. Eisenhower's victory in 1952, for example, which was accomplished on a rising tide of greatly increased voter participation, Mr. Nixon won in the smallest turnout-percentagewise-in 24 years. The total vote was far smaller than the growth in population and the enfranchisement of 18-to-21-year-olds would have

President Nixon's diplomatic overtures to China and Russia clearly helped him with many voters. The bombing of North Vietnam combined with the aggressive and increasingly visible conduct of peace negotiations evidently found favor with the majority. On the domestic front, Mr. Nixon's intensive Keynesian pump-priming meant

The astonishing feature of President huge budget deficits but recharged a sluggish economy. In political terms, it did not seem to really matter whether these foreign and domestic policies had internal inconsistencies or even whether they produced tangible results. What mattered politically was that Mr. Nixon was seen to be active and-as many voters put it-"doing his best."

The one exception where immobility paid off for Mr. Nixon was on the racial front. His do-nothing and sometimes regressive policies on school integration, on Negro voting rights in the South, on housing for the poor, and on income redistribution as well as his abandonment of his own welfare reform proposal helped rather than hurt him. Many voters in the North as well as the South, if they do not want to turn the clock back to segregation, do want to call a halt to the drive to achieve substantial black equality with whites.

In a broader context voters were, in effect, signaling that they are tired of change. After the long, emotionally exhausting national quarrel over Vietnam, after the black rebellions in the slums, the campus demonstrations, and the rapid alterations in lifestyle brought about by the counterculture in recent years, there is a national desire for repose. Mr. Nixon was triumphant because his unorthodox amalgam of "pragmatism" in foreign affairs, reversal in economic policy and cultural conservation apparently seemed to most Americans to offer the better chance for achieving peace, prosperity and

...The Defeat

an admirable and respected figure. He waged a gallant and often lonely campaign, never losing confidence in his own prospects or, more important, in the rightness of his vision of America, Scorned by his opponent who refused to debate him or even to respond to most of the issues he had raised, Mr. Mc-Govern nevertheless continued to hammer away on his major themes, of which he spoke so movingly as he acknowledged defeat late Tuesday night.

In practical political terms, his candidacy was a disaster since he won only in Massachusetts and the District of Columbia. The sources of this debacle are easily traced, By his own reckoning, Mr. McGovern at the time of his first-ballot nomination in July was the first choice of perhaps only 30 percent of his fellow Democrats. The party's most liberal elements had united behind him while their opponents fragmented and mismanaged their strength.

own state of South Dakota and an astute political strategist in winning his party's presidential nomination, seriously underestimated the difficulty of reuniting the party after the Miami Beach convention. The AFL-CIO hierarchy and many party regulars proved far more recalcitrant than Mr. Mc-Govern had anticipated or than his overall public record as a liberal-not a radical -justified. With his candidacy crippled from the outset by party dissension, he was knocked off stride at a critical time by the

In defeat, Sen. George McGovern remains truly tragic Eagleton episode. Equally harmful was his identification with the unpopular side of such issues as abortion. amnesty and the legalization of marijuana -issues hardly central to the nature of presidential leadership in the next four

> Because his political base was too narrow, his party enemies too obdurate, his social outlook allegedly too radical, Mr. McGovern lost. But the moral force of his challenge will, we believe, have lasting impact. He spoke to the conscience of America on the cruel and senseless war in Vietnam, If the majority of the nation seemed not to respond to this challenge, he did at least courageously bear witness within the two-party system to the sense of outrage which millions of Americans do feel about the war.

His plea for a foreign policy based on a genuine internationalism rather than on national egotism and the obsolete balanceof-power doctrine, his denunciation of cor-Sen. McGovern, a skillful organizer in his ruption, his deep sense of compassion, his call for a government more open and more respectful of individual libertles, and his efforts to evoke a healing, reconciling spirit between the races and the generationsthese basic elements of the McGovern message square with traditional American ideals and are sure to find their affirmation in a future election year.

We salute Mr. McGovern in defeat and expect him to carry on with dignity and with honor in the Senate. THE NEW YORK TIMES.

International Opinion

Nixon's Victory

Without a doubt the U.S. election results constitute a personal victory for the basically uncharismatic Mr. Nixon. As the congressional elections show, many voters who balleted for him did not give their votes to other Republicans, Clearly they were voting for the incumbent President rather than for his party. After many years of domestic unrest, the hardly healed wounds of the race riots and "hot summers" of the 1960s, the upheaval which the Vietnam war brought to the land. America longs for calm and continuity. In the eyes of a great majority of Americans, the sober and pragmatic Nixon seemed a better guarantor of such conditions than the visionary senator from South Dakota. The American people have given Nixen a clear mandate to continue his course and at the same time have voiced their confidence in the policy of balance that he has been pursuing since 1963.

-From Neuc Zuercher Zeitung (Zurich). * * *

Mr. Ninon's ability to cope has so far been shown to far more effect in Moscow and Peking than in the inner cities of America. This could be an accident. It may be that whereas he has found in Dr. Kissinger a diniomatic negotiator of supreme talent, no member of that rare species has come forward offering to run things at home. Dr. Kissinger has been empowered to usurp the jobs

of the secretaries of state and defense, but nobody has managed to take over as domestic

> -From the Guardian (London). * * *

President Nixon's triumph is a victory for moderation. He can be expected to continue his policy of benign neglect of the blacks and other minorities. This must be regretted, but his landslide victory suggests that it is what the majority of the American people want, at least until a new equilibrium has been established . . . Again Mr. Nixon seems to have assessed accurately the mood of the nation. Or rather of Middle America torn between the certainties and confidence of the past and present disappointments and impatience.

-From the Times (London).

Elusive Peace for Vietnam

Once again the hopes of millions of Vietnamese and of public opinion throughout the world have been disappointed. The peace that appeared within reach in October and that was nearly signed at the end of the month has been, if not canceled, at least postponed. The two sides have immediately drawn the lesson on the military level: one by stepping up its attacks almost everywhere in the South, the other by boosting the defensive potential of the Saigon regime through a real airlift.

-From Le Monde (Paris).

Seventy-Five Years Ago

November 10, 1897

PARIS-The Council of Ministers yesterday was occupied with the Dreyfus affair and at the close of the meeting the Minister of the Interior communicated a note to the press. The note points out that Captain Dreyfus was regularly and justly condemned by a court-martial, and

that only the Minister of Justice, if placed in

possession of some new fact or document, can

ask for the revision of the trial. And, as there

is no new evidence, it only remains for the gov-

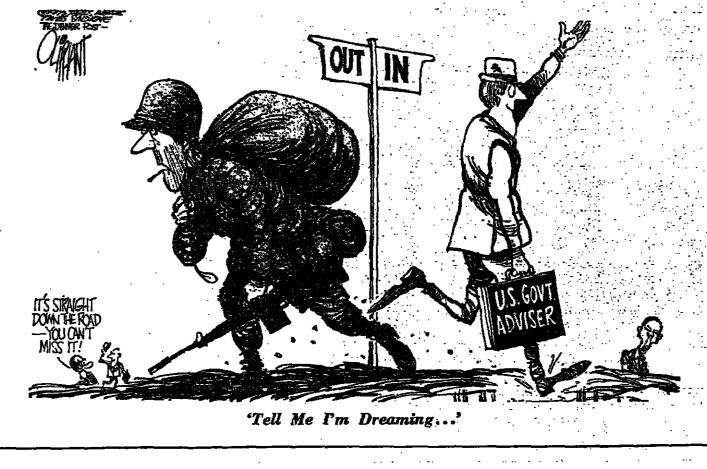

ernment to see that the sentence passed upon

the prisoner be carried out

dential elections.

Fifty Years Ago

WASHINGTON, D. C .- The final returns of Tuesday's elections, which come in from many widely separated and remote districts, only verify the statement that the control of both the House and Senate remain in the hands of the Republican party. True, the majorities are greatly lessened, and there is no doubt that the Demograts did make impressive gains, but the Republicans are still the major party and see a sign of confidence from the people in that situation. The Democrats, meanwhile, are already thinking of victory in the 1924 presi-

Confusing Portents for U.S. Political Parties

By R. W. Apple jr.

NEW YORK.—For the two giant American political parwhich have played a constitutionally undefined but crucially important role in the evolution of the American democracy, it was a disquieting elec-tion, full of confusing portents

It was, above all, a nonparty election. There were, of course, hundreds of candidates who won because of their parties, as in days past; one thinks, for example, of Sam Nunn, the littleknown senator-elect from Georgia, for whom the Democratic nomination was everything.

But it is impossible to take as a whole what the American electorate accomplished on Tuesday with hundreds of millions of individual votes and conclude that the voters much cared whether they chose Democrats or . Republicans. And to the parties, which thrive on control of legislative seats and state houses and blocs of voters, that is bad news indeed. Almost every contest, it seems, is capable of producing a startling result.

Split Tickets

What does party affiliation mean in a state like Arkansas, when President Nixon gets 69 percent, Gov. Dale L. Bumpers, a moderate Democrat, gets 76 percent, and Sen. John L. McLellan, a conservative Democrat, gets 69 percent? How much can it mean when nearly half of all voters

Sens. Margaret Chase Smith and Gordon L. Allott and J. Caleb Boggs were beaten not so much because their constituents suddenly found Republicanism distasteful but because of more personal, complex reasons, prominent among which was their ages. John D. Rockefeller 4th lost in West Virginia not because he was a Democrat but because many voters apparently considered him something of an opportunist.

Once again, moreover, the coattail theory proved no more reliable a guide to political reality than the Solid South or that 19thcentury maxim, "As Maine goes..." In almost every election since World War II, no coattail effect has occurred. The electorate, it would seem, cares little for the neatness and functional ease provided by having the White House and Congress under common control.

Party structures, inevitably, will atrophy further as this trend continues. That, in turn, will make it easier for insurgents to wrest away the nominations once awarded with monotonous regularity by the party leaders. And that, in turn, will make each election into more and more of a

Charm, Money, Wit In that situation, the candidate with charm, with money, with the wit to take hold of a narrow but deeply felt issue, will inevitably

There are many reasons for all of this, of course, but the revolution in communications must take priority. When a candidate can reach directly into living rooms with television and computerdirected mailing campaigns, it is little wonder that the professional's role as arbiter is under-

Within this broad picture, there are individual problems for the two parties.

The Democratic nominee, Sen. George McGovern-a man who won the nomination partly because he understood the changes outlined above and partly because his opposition was divided -has been resoundingly rejected. The temptation is to say that he failed because his ideas for social change were too advanced. No doubt that is true, to some degree.

Yet who would argue that Sen. Edward M. Kennedy of Massachusetts, who is ideologically indistinguishable from McGovern, would have suffered so disastrous

The example of Kennedy-and of his brothers and Franklin D. Rosevelt before him-encouraged many Democrats to believe that it is still possible to reach and win the ideologically disparate parts of the classic party coalltion on emotional, nonideological terms even today. Perhaps so. But at the very

least, McGovern's failure suggests that new metanhors must be found for the Democrats' traditional concern for the little man. Without resorting to racism, they must find ways to speak to the concerns of the new bluecollar suburbanites who fear busing. Without abandoning the poor, they must find ways to attack poverty and to finance the attack without outraging the lower middle class. Without abridging civil liberties, they must find ways to deal with the urban

mugger and rapist. Those are some of the lessons of such astoniahing episodes on Tuesday as Nixon's success in Cuyahoga County (Cleveland) as thoroughly Democratic city as

The Democrats' problems in the South are not so severe as they might appear, particularly in the Deep South. The results in Arkansas, Georgia, Alabama and Louisiana cannot have encouraged the Republicans there who keep hoping, year after year, for real progress below the presidential level.

In the upper South, however, the Republicans have made genuine headway. Tennessee was a Republican state before this year. Now North Carolina, where the Republicans elected a gov-ernor, a senator and four representatives; and Virginia, where they elected a senator and be quickly undone. Just as John

For the Republicans, the problem is simple: Can Nixon transform his personal triumph, during the next four years, into the new Republican majority of which he has spoken? To one Midwestern governor,

speaking before the election, the

answer seemed clear. It would he possible, he said, only if the President took affirmative steps, through both programs and political action, to prove to those who deserted McGovern this year that the Republican party was no longer the province of the rich. Many Republicans doubt that Nixon will work to build his party. More likely, they say, he will occupy himself, as did President Eisenhower in his second term, with the duties of his office, with an eye on his place in the history books."

But perhaps even an all-out party-building effort would not matter much. Perhaps the only way to build a winning margin is to put together a momentary coalition, as Nixon himself did this year, in an age of evaporat-

ing party loyalty. If that is the case, much will depend on the struggle for the nominations, and who emerges to challenge the putative frontrunners, Kennedy and Vice-President Agnew.

So strictly have the Japane held to principle that there has been only two amendments the law probibiting the export military personnel, a Japane diplomat pointed out recentl One allows Japanese soldiers compete in international spor events—originally passed to a commodate a champion weigh lifter—and the other allows the Tapanese Self Defense Force assist in transportation activ ties for Antarctic expeditions.

So, although the dapased might be relieved not to be asked him to a peace-keeping him in [1] force, Japan would expect to ! included in any international cor ference concerning the future

Views of Monnet Jean Monnet, the 84-year-old

Inflation

Letters.

Every day we read that infla-tion has become the No. 1 economic problem everywhere and it seems high time that there be some new thinking on the subject. Price and wage controls now imposed in the United Kingdom following the U.S. pattern, may be effective and acceptable for limited periods, but over the longer term we need measures which are less direct, more palatable to the business community and labor, and more consistent with our general economic system.

I suggest that measures based on incentives to hold the price line would be perhaps more effective over the long term than controls. One type of incentive would be to grant some form of tax concession to companies maintaining price stability. The tax on corporate profits might be arrange somewhat reduced or comparable tax adjustments made. After all allowances are made for all kinds of purposes to stimulate investment, to promote exports, etc., but surely, any tax revenue lost in maintaining a stable price level

will be recouped many times over in savings to the country as a whole. ALFRED E. DAVIDSON.

sents the world's greatest trading power. And this still remains to

Frenchman who is the Community's grandfather, insists: "It is essential that relations between the United States and Europe should be on a basis of equality. therefore Europe must speak as one. Of course the Community doesn't have its own nuclear force as such, but on an economic and monetary basis it is certainly the equal of the United States though its separate members are

For this reason the Community members must accustom themselves to negotiating as a unified bloc. Even then, Monnet feels, the problems to be settled between this continent and the United States are so complex and difficult that they may easily take much more than four years of another presidential term to

He believes the best way to start is by creating an organization representing the two as equals the United States and the Community. This would maintain permanent contact and conthusi consultation between responsible American cabinet ministers and members of the European Commission.

The dislogue would have to

Entertainment In New York

TEW YORK, NOV. 9 (IHT).~ NEW YURLA NOT. The This is how critics for The New York Times rate new films and stage productions:

"Pygmalion," a "sloppy" production of George Bernard Shaw's 1922 play, as staged by Paul Shyre, "puts its period most emphatically at 1932," Clive Barnes reports. "Fine," Barnes says, but here "nothing at all is made of this transference. The director drags no relevance from his time change. Indeed, at one moment Henry Higgins hums a theme from Prokofiev's 'Peter and the Wolf'; the score was first performed in 1936. But who's counting? Surely anyone interested in Shavian style." Barnes writes: "Nothing went all that right, yet I objected infinitely less Stephen D. Newman's playing of Henry Higgins than to the re-mainder of a cast that, I am certain, will see happier days."

"Escape to the Sun," directed by Menahem Golan, "assembles a cross-section of disaffected Russians who want to emigrate to Israel and can't-legally-and pits them against the tormented cunning of one Soviet intelligence officer, a Major Kirsanov" (Laurence Harvey), Roger Greenspur reports. It is "easiest to fault ... on the quality of performance," Greenspun says, "which ranges from the professionally inept (Mr. Harvey) to the almost amateurish (Josephine Chaplin) and which deals in a helpless pseudo-realism that has all the minor characters speaking with Russian accent but allows the major characters accents—British mostly—of their own." But the direction subverts the movie and keeps sinking it beneath the level, to which it might have aspired, of the merely routine." The movie "The Deadly Trap," directed by

René Clément, is "supposed to he a suspense melodrama about an American couple (Frank Langella and Faye Dunaway) who live in Paris and are menaced by the members of an industrial There is pie throwing, but it espionage ring," Vincent Canby does not have the elan nor does complains, but "all of it is so arbitrarily muddled you begin to throwing under the auspices of believe the film means to demon-Mack Sennett once did. The strate other things, say, the leading roles are wacky, but limits of human patience." neither Barbra Streisand nor Ryan O'Neal disclose any aptitude ing really works, Canby says, "not the performances, nor the direcfor whirlwind shapstick. All is tion by a man who once made

TORRALTA LISBON **PORTUGAL**

TORRALTA/Tourism: Year 6

Anticipating the Tourist's desires and demands was always our main objective. In this way we would be able to fully develop the wide range of vacation activities possible in Portugal, and, at the same time, satisfy the Tourist's desire for a change of scene. Today we have extensive property holdings which belong to thousands of Portuguese shareholders located in the Algarve, in Troia, in the Alentejo and in the Serra da Estrela. With these holdings we can offer holidays in the country or by the sea. We are now beginning extensive promotion plans to attract a larger audience of affluent Tourists.

TORRALTA/Tourism: Year 5

We believe Tourism must serve every interest of today's Tourist to be completely successful. That's why we developed a variety of vacation areas which now offer everything a Tourist night enjoy during every vacation season. Portugal's popularity as a Touristic center has proven our ideas sound and provided ample reward

TORRALTA/Tourism: Year 4

Our fourth year of existence was marked by the beginning of a touristic venture in Troia which turned this magnificent peninsula, with thirty kilometers of beaches, into an international Tourism center. We were carrying out our original plan to expand tourism into many diverse geographical locations. This automatically increased the tourists' vacation options and insured year-round Tourism for Portugal . . . from sand to snow. This proves we are an enterprise which believes in bringing the promised success of the future to the reality of the present.

TORRALTA/Tourism: Year 3

From the beginning we knew that although the climate, the sun and the beauty of the natural surroundings were essential, they alone would not insure the successful promotion of a National Tourism which would outlive its rate of growth and satisfy the tourists' increasing demands. Our enterprise, which offers a way of vacationing that is diverse and accommodates many interests, reflects that philosophy. As a growing touristic enterprise, ready to face the future, we destroyed tediousness, Tourism's worst enemy.

TORRALTA/Tourism: Year 2

To extend the benefits to the greatest number of people and enlarge our basis of support. we introduced unusual promotional plans in Portugal which rapidly became successful. This initial success has been consolidated throughout the years, but in 1968, it was, for us, the guarantee that we would attain our proposed social aim.

TORRALTA/Tourism: Year I

This was the year we decided international tourism would offer great economic advantages to a wide spectrum of Portuguese citizens. After several important years of planning, we began to put our original ideas to work: first, the organization of a touristic enterprise which, in the shortest possible period of time, would improve and enhance the existing National Tourism, thereby putting us into competition on the international market. In 1967 we began to grow.

Yesterday, during a budget discussion, Culture Minister Jacques Duhamel told the National Assembly that a series of strikes by Comédie-Française technicians had made it impossible to continue performances after Nov. 15. Since Oct. 13, the theater has had to cancel about a dozen performances at the last minute.

As soon as Mr. Duhamel made his announcement, the Comédie-Française technicians stopped work and the performance of "Oedipus" scheduled last night was canceled.

At issue are salary demands on the part of the union and the government's desire to modify contractual agreements concern-ing, among other things, working hours and overtime.

Other Roles As Jörg, the power behind the pulpit, Harald Stamm was rather pale in a role calling for a deeper bass voice. Jean van Res was a brash lover, while Marita Knobel and Hering Erb made formidable impressions as the young betrothed pair.

Huge aquiline wings hovered over the gaudy sets of Max Bignens, whose mirrors in the first and third scenes caused some disturbing reflections. For the cemetery scene, a colossal military monument, with the inscription "Gott, Ehre, Vaterland drew an incredulous gasp

from the audience. The decision to omit the overture, in view of the program's reference to the "interesting overture," raised some eyebrows and gave the evening an abrupt

According to one estimate.
Merrill Lynch handles 10% of the total
Euro-security after market. In 1971 it
handled more than one billion dollars
worth of bonds; for the 8 month period
ending August, 1972 the figure has
exceeded the 1971 volume of one billion.

Merrill Lynch's traders and their back-up staff not only make a market in these issues, but act as brokers in hundreds more. And because this is Merrill Lynch, they are part of a system which distributes both bonds and information on a scale unequalled anywhere.

GRACE 5-86

Living Cost **Rises 0.6%** In Germany

WIESBADEN, West Germany, Nov. 9 (AF-DJ).—The cost of living rose 0.6 percent in October -putting the index 6.4 percent above the year-earlier level, the Federal Statistics Office reported

The October index was 140.4, up from 139,6 in September and 132 in October, 1971 (1962 equals

The index is widely considered the prime indicator of infla-tionary trends in West Germany. The 6.4 percent rise from a year earlier was the sharpest yet registered. The statistics office noted that in September the index rose 6.2 percent and in August 5.7 percent from respec-

tive year-earlier months.

The October rise is in line with predictions made privately by Economics and Finance Ministry officials. They now anticipate an average rise for the year of close to 6 percent in 1972 against a 5.2 percent increase in 1971. Ministry officials said an annual index rise of 6 percent or more

would be alarming." The Bundesbank said it would do everything in its power to bring the rise in the cost of living down to an annual rate of 5.5 percent next year, or 4 percent in December, 1973, from the year-

earlier month. Bundesbank president Karl Klasen said last week that the central bank would use all means to attain its goal, especially by curtailing monetary expansion,

which is rising at an annual rate of about 15 percent. The Bonn government, seeking re-election Nov. 19, has also committed itself to an anti-inflation policy by ways of fiscal and

monetary measures, but short of wage and price controls. Inflation has become a major topic in the current election cam-

Swiss May Curb Sales of Property

To Foreigners BERN, Nov. 9 (AP-DJ).—The federal government proposed to-day legislation to curb real estate

sales to foreigners. would replace a temporary total ban decreed under emergency powers during the mone-

tary crisis last summer to halt

the influx of speculative foreign A key provision would bar foreigners from buying property in tourist areas where a "disproportionately high share is already in foreign hands." This would particularly hit the Alpine regions of Values and the Grisons where some newly developed resorts have aimed at foreign markets for chalets and condominiums. The new legisla-tion is likely to take effect next

According to official statistics, sales of property to foreigners in the 10 years ended 1971 totaled 3.54 billion francs (about \$1 billion). German, Italian, French and Belgian nationals made up most of the buyers.

EEC Warns Japan on Ship Construction

Says It Won't Tolerate A Monopoly Situation

TOKYO, Nov. 9 (Reuters).-West European shipbuilders today gave a strong warning to Japan over its rapid expansion of shipbuilding capacity and sales methods at a time when the world industry is in difficulties. A statement issued at the end of a three-day shipping confer-ence here said the West Europeans will not tolerate a monopoly situation by any one country and might consider problems on a different basis if no early

The conference drew delegates from 13 countries belonging to the shipbuilding working party of the Organization for Economic Cooperation and Development The statement by the European Economic Community noted a deterioration in the European shipbuilding situation and said the crisis in the international shipbuilding market "could well be prolonged in the medium term by introduction of addi-

solution is found.

tional production capacity." Capacity Danger It said that, despite such indications of a serious danger of excess capacity, certain countries, and in particula: Japan, are maintaining and gradually implementing very ambitious in-

vestment programs. The statement went on to criticize recently-adopted sales procedures which, if they became widespread, "would contribute to a fundamental shift in the present distribution of shipbuilding." This was a reference to the reported placing of large orders for tankers by Japan's Sanko Steamship Co. for chartering to Euro-

pean operators at low rates. "The community hereby declares it cannot countenance its production capacity, throughout or in any part of the range of types of shipbullding, being subjected to a monopoly situation on the part of any one country," the statement

The EEC said it considered it indispensable to reach an agreement as soon as possible within the OECD working party. "If no solution can be found which is satisfactory to all the parties concerned, the community might deem it necessary to ex-

amine these problems on a different basis," it said. West Europeans claim government aid is one of the reasons why Japan at present builds half of the world's shipping. They

cent by 1975. Attending the conference were Belgium, Britain, Denmark, Finland, France, West Germany, Greece, Italy, Japan, the Netherlands, Norway, Spain and Sweden.

The United States and Canada attended as observers. Million-Ton Ship Eyed

LONDON, Nov. 9 (Reuters) .--Greek shipping magnate Aristotle Onassis is sponsoring a team working on plans for the world's first one-million-ton tanker, his technical director disclosed here

today. The new vessel is still on the drawing boards and the leader of the design team, Andrew Spyrou, said it would take between two and four years to become a real-

The design envisages a completely new type of mammoth vessel—a mother ship with smaller detachable container tanks fixed to its side. On reaching ports these tanks would be separated while the mother ship took the rest of its cargo to other destinations.

FINANCIAL NEWS AND NOTES

TWA Hopes to Diversify

Trans World Airlines is actively pursuing significant diversification of its activities through acquisitions. L. Edwin Smart, a senior vice-president, says that "a large diversification effort is exceedingly logical for us, given our tax position." At Dec. 31, 1971, TWA had about \$60.9 million in accomplated investment tax credits available for future use. TWA by itself could not possibly use up its tax benefits even under the most optimistic of future projections, says C.E. Meyer jr., senior vice-president. Areas of interest include companies related to the travel and tourism fields. service businesses and food and feeding operations. Its acquisition criteria would exclude other common carrier transportation companies or those engaged in aeronautics because of regulatory and other reasons. Officials add that there are no accruisition negotiations in progress. TWA has owned Hilton International, a hotel chain, since

Gulf & Western Readies Takeover Gulf & Western Industries, a leading U.S. conglomerate with annual sales of about \$1.7 billion. is making its first major acquisition of a listed company on the New York Stock Exchange in the past several years. Its affiliate. Associates First Capital Corp., and Talcott National Corp. have announced an agreement in principle under

which Associates would acquire all of the outstanding common stock of the diversified finan-

cial company for cash and securities worth about \$73 million. The agreement, approved by directors of both companies, is subject to certain other conditions including approval by Talcott stockholders. Each Talcott share would be exchanged for \$17 in cash and .6 of a Gulf & Western

Norton Simon, Max Factor Eye Link Norton Simon Inc. is holding exploratory talks with Max Factor & Co. on a possible merger. An agreement in principle has not yet been reached. Alfred Firestein, president and chief executive of Max Factor, says the cosmelics maker has responded to requests for preliminary discussions with representatives of Norton Simon to "explore the feasibility" of a combination. Norton Simon is a diversified food concern with interests in publishing, and alcoholic and soft drinks.

GM Delays Turbine Engine Output

General Motors is delaying for a year comm cial production of a turbine engine for industrial, marine and truck use. The turbine engine, introduced about a year ago. was to have gone into commercial production this fall. Now it is likely to go into production next fall. The reason for the delay is a new engine block design permitting production of higher (400 to 450 instead of 325) corsepower engines. GM has said that the turbine will be cheaper to operate, have fewer moving parts, and produce less vibration, noise and pollution than the conventional diesel engine.

U.S. Banks Seek Loan Pact With Soviets

By H. Erich Heinemann NEW YORK, Nov. 9 (NYT).group of regional banks in the United States, under the leadership of French-American Banking Corp. in New York, is negotiating with the Soviet bank for foreign trace in Moscow to extend a line of credit of \$100

Until recently, the American banks—including institutions in such cities as Detroit, Memphis, Indianapolis and Dallas-have for the most part not played major

million that would be used to

finance U.S. exports to the Soviet

roles in international finance. Their participation in the discussions, bankers said, was clear evidence of the rapidly rising interest in the United States in expanded commercial relationships with the nations of the

Eastern bloc. French-American, for its part, is a wholly-owned subsidiary of the Banque Nationale de Paris, a government-owned institution that is the largest bank in France. The long-standing close contact between Paris and Moscow, bankers said, had undoubtedly been important in aiding French-American in negotiating

According to François de La-jugie, president of French-American, the loan negotiations have not been finally completed, and an agreement has yet to be signed. But Mr. Lajugit said that Soviet officials had shown "great interest" in the proposal during a four-day negotiating session that was held in Moscov last month. He was very opti mistic that the agreement would be completed shortly.

Mr. Lajugie declined to make any comment on the terms and conditions of the proposed loan agreement, but from other sources it was learned that the following are its principal features:

• The proposed borrowers will be various agencies of the Soviet government, to which letters of credit will be issued that in turn are to be guaranteed by Vnestorg Bank, the bank for foreign trade in the Soviet Union. In their letters of credit, the IIS banks will in effect guarantee that the American exporters will get paid for the goods that they are

 The loan is to be a "revolving credit" for the first three years (that is, the porrowers will be able to draw down and repay the loans at will), and thereafter the credit will be converted into a term loan repayable over a period of up to an additional seven years.

• The interest rate is to be either three-quarters of 1 percent over the prime, or minimum, lending rate of the American banks (which is currently 5 3/4 percent; or a fixed rate of 7 1/2

In the case of a fixed interest rate of 7 1/2 percent, the Soviet agencies would negotiate an "interest compensation agreement" with their American suppliers. Under such a deal, the interest rate on the notes the Soviets would sign would be less than 7 1/2 percent, say 6 percent, and the exporters in this country

would agree to make payments

to the banks to bring their yield up to the agreed-upon rate. Naturally, these payments would be figured into the cost of the goods the Soviets were buyingbut the nominal interest rate on the loan would be held to a level acceptable to the Soviet au-

Afternoon Rally Lifts Average to Near 1,000

By Vartania G. Vartan NEW YORK, Nov. 9 (NYT) .-A late rally in old-line blue chips lifted the Dow Jones industrial average today to its highest level in more than 6 1.2 years and put it within striking distance of

the tantalizing 1,000 mark. It consisted, in a sense, of a post-election rally after taking time out yesterday to digest recent sharp gains in the New York Stock Exchange's most

popular indicator. The Dow finished today at 988.26 with a gain of 4.52. According to statisticians at Dow Jones, this ranked as the third-highest closing on record and the

best since 990.81 on Feb. 10, 1966. The all-time closing high was made one session earlier on Feb. 9, 1966, at 995.15. Ever since that day. Wall Street has been dream-

ing of a close above 1.000. A surge in the price of American Telephone, the nation's most widely-held stock, helped to trigger the afternoon rally. As late as 1:30 p.m., the Dow was down

more than 5. At 2:32 p.m., a block of 75,000 shares of Telephone appeared on the tape at 50-its highest price

since the spring of 1971. Full Point Ahead

On the heels of this trade. there followed a block of 100,000 shares, again at 50. That was also the closing price for Telephone and put the stock a full point ahead for the day, ranking as the second most-active issue on a total turnover of 374.900

AT&T warrants, the volume leader, rose 1'4 to 7 3 8. Each warrant entitles the holder to buy one share of Telephone common at \$52 through May 15, 1975. In recent weeks. Telephone has been recommended for purchase by a number of brokerage firms. thanks mainly to prospects for higher profits in 1972—some estimates run \$4.25 a share after a three-year plateau in

The expectation is growing in Wall Street that the Dow will move up through 1.000-perhaps in the near future-and that such a dramatic development will attract more foreign buyers and small investors into the market.

earnings.

variety of reasons—the re-election of President Nixon, the expected peace in Indochina, surging corporate profits, an improving economy and the seasonal impetus of a year-end rally.

Prices eased in moderate trading on the American Stock Exchange, although selected issues ran counter to the trend. The Amex index dipped 0.01 to 26.10. while declines outscored advances. 516 to 394. Turnover was 3.71 million shares, down from 4.41

militon yesterday. The corporate bond market railied this afternoon and pushed prices up 1/8 to 1.4 of a point across the board at the close. Prices in the sector had been off as much as 1/2 of a point

during the morning, dealers said.

Unless otherwise noted, rates of dividends in the forepoint table are annual disbursements based on the last
quarterly or semi-annual declaration. Special or extra
dividends or payments not designated as regular are
identified in the following footnotes.

3-Also extra or extras. b-Annual rate plus stock
dividend, c-Liquidating dividend, d-Declared or paid in
1971 plus stock dividend, e-Declared or paid in preceding 12 months. f-Paid in stock during 1971, estimated
cash value on ex-dividend or ex-distribution data,
t-Declared or paid after stock dividend or split us.

k-Declared or paid this year, an accumulative lasus with
dividends in arrears. n-New issue, p-Paid this year,
dividend omitted, deterred or paid in 1972 plus stock
dividend maeting, r-Declared or paid in 1972 plus stock
dividend meeting. r-Declared or paid in 1972 plus stock
value on ex-dividend or ex-distribution data.

cld-Called, x-Ex dividend, y-Ex dividend and sales
in tuit, x-dis-Ex distribution, xr-Ex n, ints, xw-without
warrants ww-with warrants, wd-withen distributed,
wi-light in sales, and hext day delivery.

v-In bankruptcy or receivership or better reorsanted
under the Bankruptcy Act, or securities assumed by vi—in bankruptcy or receivorship or bette reorganized under the Bankruptcy Act, or securities assumed by such companies, in—Foreign issue subject to interest equalization tax. Year's high and low range does not include changes in latest day's trading.
Where a split or stock dividend amounting to 25 per cent or more has been paid the year's Migh-low range and dividend are shown for the new stock only.

INTERNATIONAL INVESTMENT COUNSELLING

Establishing a Policy

Your international investment portfolio Policy should include consideration of safety, income and

At Lionel D. Edie International, we are prepared to assist you in balancing these factors to fit your requirements; advising whether or not you should have straight bonds, convertible bonds, or equities -

and in which countries and in what ratio. We are also prepared on the basis of a professional research to select the investment vehicles we consider right for you, maintain continuous supervision and recommend changes when, and if, it is decided that an investment no longer suits your requirements. Whether it be a change in safety -

income - or growth potential.

Senior Counsellors have ample time to devote to establishing your *Policy*, and to maintain close and continual attention to your investment portfolio.

If you would like more information contact

Edouard Iselin, our Executive Vice President in Geneva. He will be glad to discuss services, fees and answer any questions you may have.

Lionel D. Lionel D. Edie International, Ltd. 62, Rue du Rhone
1204 Geneva, Switzerland

This offering is not being made to citizens or residents of the United States

(A Real Estate Investment Trust)

\$5,000,000 of 71/2% Subordinated Debentures Due November 14, 1975 \$5,000,000 of 71/2% Subordinated Debentures Due

November 14, 1976 50,000 Warrants to Purchase Shares of Beneficial Interest at \$25 Per Share

Builders Investment Group (the "Trust") is a real estate investment trust organized under the laws of the State of Florida, United States of America. The Trust invests in a diversified portfolio of real estate interests, consisting primarily of first mortgage construction and development loans, short-term first mortgage loans and land purchase-leaseback transactions.

The Debentures will be sold at 100% of the principal amount thereof and will be sold in Units, each consisting of \$1,000 principal amount of Subordinated Debentures, due 1975, \$1,000 principal amount of Subordinated Debentures, due 1976 and 10 Warrants. The Warrants may not be detached from the Debentures or exercised for a period of one year after issuance.

The Debentures will bear interest at the rate of 7 1/2% per annum, which interest shall be paid in United States Dollars free of United States withholding taxes, except in certain events. The Debentures shall be non-redeemable except in certain events relating to United States taxes.

The Units are offered only to persons who are non-residents and nonnationals of the United States of America and who are not residents of Canada.

The Units are being offered subject to receipt and acceptance by the Underwriter and to certain other conditions, including the right to reject orders in whose or in part. The minimum subscription shall be 10 Units.

Inquiries as to subscription for the Units and for copies of the Offering Circular may be made at the offices of Shearson, Hammill & Co., Incorporated, 1 Maltravers Street, London, W.C.2, England, attention Mr. Michael Palmer.

WAIT, DEAR! DON'T GO DOWN UNARMED DAGWOOD~ WAKE UP! I HEAR A STRANGE NOISE DOWNSTAIRS YOU CAN WHAT GOOD ! TAKE PICTURES FOR THE THERE'S POLICE á rurglar

BRIDGE

By Alan Truscott

On the diagramed deal South will succeed in his contract of four spades if he pays attention to the bidding, which begins with one diamond from West. North makes a take-out double, and South makes an encouraging jump to two spades, suggesting a hand with about 10 points. By making a second bid in the face of a silent partner, West shows by bidding three clubs that he has some reserves in terms of high cards and distribution. North's jump to

four spades closes the auction. West takes two diamond tricks and shifts to a trump, the only play from his angle that cannot cost a trick. Now South must maneuver to avoid the loss of a club trick. In normal circumstances he would lead hearts twice from the dummy, a standard play that allows for a doubleton ace in the East hand as well as a three-division.

NORTH ♠ AKJ73 ♥ J632 WEST (D) **42** ♥ 10875 **A** 8 ♥ A 9 SOUTH 4 Q10965 V KQ4 **4** 06 Fast and West were vulnerable. The bidding: North East Pass Pass

But in this case the bidding has to be taken into account East cannot have a doubleton heart ace, let alone a singleton ace for two good reasons: West must have the ace on the bidding; and West has shown length in the minors, probably five-five, so he cannot have length in hearts.

Once South pictures the West hand, as he can very well do if he makes the effort, the solution is not hard to find. The first heart lead, at the right moment, must be the four from the closed hand

So South wins the first spade lead in his hand with the nine and ruffs his last diamond high in the dummy. He returns to his hand with a second trump lead, and plays the heart four. West must duck, for otherwise South has three tricks in the suit. The jack wins in dummy, and another heart lead endplays West, as South can expect. The return will be away from the club king, or will concede a ruff-and-sluff. As a well-read man, South naturally passes the test in cardreading.

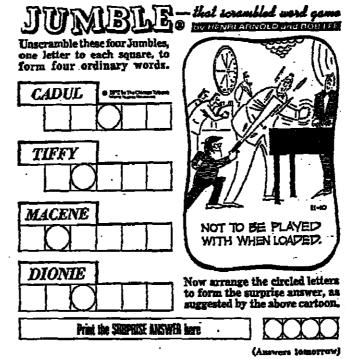

DENNIS THE MENACE

West led the diamond king.

"Mr.Wilson sure Don't Know PRICES HAVE GONE UP! *

HE WANTS ME TO STAY AWAY FROM HUM FOR A WHOLE WEEK FOR A QUARTER!*

SHAW, 'THE CHUCKER-OUT' A Biographical Exposition and Critique Edited by Allan Chappelow. AMS Press. 558 pp. Illustrated, 5

Reviewed by Stanley Weintraub

BERNARD SHAW never threw anything away. Ironically. the title suggests otherwise, but "chucker-out" is British for saloon bouncer, the title the nonagenarian Shaw suggested for a Chappelow photograph used on the jacket. Getting past the jacket, one has the impression of a large Shavian attic in which the editor has rummaged. Although many of Shaw's papers and effects were lifted by scavenging secretaries and self-serving assistants to turn up eventually in American collections, the largest hoard remains in London.

Gradually and largely unsystematically the lifetime of correspondence newspaper clippings. drafts of plays, play-fragments, prefaces, lectures, lay sermons, reviews, articles—even a stillunpublished short story and discarded scraps of every kind-is coming into print, recent examples being a fragment of a blank verse passion play Shaw wrote when he was 22 (in 1878), a group of lectures on socialism, an 1884 lecture on Shakespeare's Troilus and Cressida," and an 1887 lecture on truth in fiction. In bulk the largest hoard is "Shaw-The Chucker-Out." subtitled ambitionsly "a biographical exposition and critique." yet valuable not for Chappelow's editorial interpositions but in spite of them. An unusual perspective of the working writer emerges. For 40 years G.B.S. took time out from other work to speak as often as three times a week-without fee -for causes he supported, and since he often spoke without a prepared text, the verbatim ac-

counts of his speeches, such as one gleaned from the Staffordshire Sentinel, are fascinating insights into his ideas and rhetorical methods. Shaw also kept the notecards for otherwise extempore lectures, some of them also included. It is unfortunate that one set slipped by Mr. Chappelow, for he prints a 1924 lecture on the literature of the theater from a third-person newspaper report, and calls it "the only lecture Shaw ever gave on the subject." Notecards for a 1914 lecture on the drama at Oxford, as well as newspaper accounts of it. are among the Shaw papers at

the British Museum.

What is left out nevertheless, is not as important as what is in print in Chappelow's collection, for given the extent of the materials available. even 526 pages of text are but a survey, and in them are samples of Shaw on morals, censorship, politics, theater, family life, sex, trade unionism, war and peace, alphabet reform, education and other preoccupations. G.B.S.'s friend Desmond MacCarthy once called him "a chaos of clear ideas," and if is this chaos which Chappelow attempts to reduce to manageable proportions. Although in the process he seldom allows Shaw to speak without interruption and interpolation, the complete texts of useful documents remain the book's most valuable resource. The best of them, presented intact, are worth the price of the book.

Two texts provide the esse of the mature Shaw and platform prose he employed promote the better organization of society he believed necess before human beings could humanely in an environg over which they had adequ control. One is a forceful sermon." "Christian Econom; delivered at the liberal City T ple in 1913. The earlier of two is a first-person account a speech delivered in 1911 Hanley, in the Potteries, a gr town which explained to him said, why his friend Amold ? nett-a native-lived most of time in Paris." The quality life in the area was proof of urgent need for change, he I walked today to a p —I don't know where it is cause I don't know which t is which. It was somewhere i Stoke, and it was called, I th Hartshill. I wanted to get the fresh air, but the mor went up the hill the worse air got. I remember when was young the kitchen chim caught fire, and for three mor after that the house smelt exa like_Hartshill The people the Potteries, he concluded, v either insane to tolerate conditions or unaware that could be better. The rest of lecture proceeded to explain 1 through municipalization of vices, better schooling, and eq: ization of job opportunities of which he identified with bian principles) "a healthy bappy and great country" or come into being each per proud of having produced n than he consumed.

For those who needed thing more he concluded the there were a life to come wire here such man would be able to into the presence of his God' "crawling, and asking for giveness of sms. and admit that he had lived in a wil and horrible way. He would up his head even before his and say: When I was in ? world I did Your work in world, I did more than Your y in the world: I left the world in debt. You are in my debt, give me my reward!" The count noted "Loud cheers" the evangelical climate of Midlands Shaw knew what oration he needed. It was put-on. It was the core of philosophy, imbedded plays and prefaces.

At times Mr. Chappelow picky over nuances of Sk politics and economics but real Shaw is somewhere e in the notecards and newsp clippings and other auth MILITY odds and ends. "The Chu Out" does not encapsulate G. gories Shaw sprawls across book. So much the better.

Stanley Weintraub is the thor of several books on Si and editor of The Shaw Ret: This article has been about from a longer version which peared in The New York Ti-Book Reriew.

A Hill

Australia, Italy, New Zealand and Canada were tied at 148. The Japanese retained a superb touch on the unpredictable greens. Each needed only 32 putts. Murakami shot a 70, the day's low score, which was also carded by Hahan Chang-sang of South Korea, Donald Swaelens of Bel-

Taiwan, Japan's Kono shot a 71. The United States, represented by Jim Jamieson and Tom Weiskopf, the tournament co-favorites with Australia, turned in a disappointing 150 combined total to trail the leaders by nine shots in 10th place. The United States is the defending champion.

gium and Hsleh Min-nan of

Weiskopf and Jamieson, playing in their first World Cup, falled to handle the unpredictable fast greens on an unhappy birthday for Weiskopf, who turned 30 today. He had 39 putts in his round

Jamieson had five bogeys and three birdies in his 2-over-par 73. "That is the second longest round of golf I've ever played. The longest was during the Bing Crosby tournament. I guess we might as well sleep here," he

6 1/2 Hours

Several of the world's top professional golfers struggled for up to 6 1/2 hours to complete

"It's bordering on the ridiculous to take 6 1/2 hours to play 18 holes," English captain Tony Jacklin said after shooting a 77. "I tried very hard right through the 18th but I shot a 77. I'd be a hypocrite if I said I enjoyed the game. Something has to be done to quicken up the play,"

It took Gary Player of South Africa and partner Tienie Britz and opponents from Taiwan 70 minutes to play the first two holes. Player shot a 76, Britz a 73, good for a 149 total and ninth place.

Beiginm was the surprise of the first round when 60-year-old Flory Van Donck, veteran of 18 World Cups, shot a 3-over-par 74 and his partner, Swaelens, a veteran of 14 World Cups, shot a 70 to tie for second at 144. Eighty-six goliers from 43 Dations were in the competition.

New Site for '76 Winter Games

Killanin Sees February Olympic Decision

DUBLIN, Nov. 9 (Renters).— A decision on the venue for the 1976 Winter Olympics is unlikely to be taken before Pebruary, International Olympic Committee president Lord Killanin said here today.

"That is the next meeting of the committee and I do not expect any decision to be taken before then," he said.

The 1976 Winter Games had been awarded to Denver, but in a referendum held on Tuesday Colorado voters accepted two proposals cutting off city and state financial support for the

Lord Killanin said he had received no official report of Colorado's position, but added: "Possibly by Monday we shall know The IOC president is to dis-

cuss the situation with the three committee vice-presidents at a meeting in Lausanne, Switzerland, next Monday. "At the moment, I can see no

reason why the Games should not go on," he added. "Cables are arriving all the time from cities wanting the Games," Lord Killanin said.

Commenting on a statement made yesterday by former IOC president Avery Brundage that the Winter Games should be abandoned, Lord Killanin said:
"That is a view which he has always expressed. I do not have a personal view. I am the chairman of a committee and we shall discuss the situation.

"Some people are 100 percent for the Winter Games, some peo-ple are against them. The general view, however, is that there ought to be Winter Olympics. But it is now a matter for the International Olympic Committee," he added.

Restraining Order

DENVER, Nov. 9 (AP).-A District Court judge temporarily restrained the Denver Olympic Organizing Committee today from formally notifying the International Olympic Committee that Coloradans have rejected the 1976 Winter Games. Judge Neil Horan issued the

temporary order on a request of three individuals identified only as Churchill G. Blackwell, Don L. Hermansen and James G. Disney.

The three maintained that Denver and Colorado voters voted Tuesday only on whether further state and city funds should be spent on the Olympics, not

Back Missed Practice

NFL Chargers' Thomas Deactivated for Season

SAN DIEGO, Nov. 9 (UPI).— Duane Thomas won't be playing in the National Football League

The San Dicgo Chargers placed the controversial running back on the reserve list yesterday when he failed to appear for practice. It means he cannot be reactivated in 1972.

"Duane is not prepared to play this season," said Chargers coach Harland Sware, "Obviously, he's got some problems that won't permit him to play now.

"I have been weighing this decision for a considerable length

Thomas, regarded as one of the most talented running backs in pro football, was acquired before the start of the season from the Dallas Cowboys for running back Mike Montgomery and wide receiver Billy Parks.

Activated Sunday

He was activated for the first time last Sunday but saw no action. He did not do calisthenics with the team then, walked along the sidelines during the playing of the national anthem and sat on the bench throughout the game, staring straight ahead.

"His actions Sunday were not deliberate and were not intended to be disrespectful," said Svare.

Maloney's Hat Trick Helps NHL Black Hawks Triumph

play.

NEW YORK, Nov. 9 (UPI) .- goal third period to give Min-Dan Maloncy got his first National Hockey League hat trick last night, scoring two of his three goals within 61 seconds of third period to help bring the Chicago Black Hawks from behind for a 6-1 home victory

over the New York Islanders. The victory was the first for the Hawks after five games in which they lost three times and tied twice, and lifted them into second place in the West Division, 3 points behind Los Angeles. Kings 3, Flames 3

Los Angeles had an eight-game winning streak broken but salvaged a tie against Atlanta with two third-period goals and denied the Flames their first home victory. Los Angeles began its comeback when Gilles Marotte scored with an assist from Whitey Widing at 16:28 of the final period. With 35 seconds remaining, Widing passed to Mike Corrigan, who knocked in the tying goal for the Kings.

Canadiens 5, Maple Leafs 2 Pete Mahovlich's two goals included the winning score midway through the third period as Montreal scored a 5-2 home victory over Toronto and kept a 5-point lead over the second-place New York Rangers in the East Rangers 5, Canucks 2

Rod Gilbert set a Ranger record by getting a goal or an assist in his 14th consecutive game and Walt Tkaczuk added a pair of goals to power New York to a 5-2 home victory over Vancouver. Gilbert tapped in a rebound of Brad Park's shot at 1:34 of the second period to snap a 1-1 tie and start a four-goal Ranger 11th goal to go with 12 assists for New York's right wing.

North Stars 5, Golden Scals 2 A 45-foot slap shot goal by Dean Prentice ignited a three-

Campaign Promises

By Russell Baker

WASHINGTON.—Every election ably unmake within the next produces a large number of year: public officials who interpret victory as a mandate to break the promises they made while campaigning. To find out more about the little-

known subject of campaign-promise breaking, we have sent a questionnaire to everyone who was elected Tuesday night. and the results

Eighty-seven percent of those Baker overied report that they fully intend to break at least 30 campaign promises. Respondents vary widely, how-ever, in their opinion about when

be done without violating the canons of good taste. More than 55 percent said it would be tasteless to break a campaign promise until they had been in office at least 90 days. Another 20 percent favored a period of six months. Twentyfive percent were undecided.

the first promise-breaking may

Our questionnaire also sought to determine the 10 promises politicians most regretted making. It was felt that this would be a delicate method of getting respondents to tell us which promises they were most likely to break first.

Here is the politicians' checklist of the 10 pledges they most wish they hadn't made and which, in fact, they will prob-

Danielou Is Elected To French Academy

PARIS, Nov. 9 (AP).-Jean Cardinal Danielou, Jesuit theologian and author, today was elected to the French Academy intended immediately to put to occupy the seat left open by the death of Eugène Cardinal Tisserant.

The election of Cardinal Danielou, 67, to the academy followed the tradition that one of the 40 "immortals" should be a highranking churchman.

1. Will not put relatives on public payroll. 2. Will bring the boys home

by Christmas. 3. Will not give new paving contract to brother-in-law. 4. Will not raise taxes. 5. Will appoint more honest

6. Will not take money from special interests and crooks, 7. Will tell voters the truth about what is really going on in

government. 8. Will listen to young people. 9. Will cut spending. 10. Will not take bribes.

One question which has puz-zled political scientists for generations is, why do politicians break campaign promises? Our questionnaire asked then, to explain, and some of the individual explanations were heartbreaking.
"I can't help myself," said Alderman Botsford Sump, of

Seven congressmen said. "I am a hopeless liar," or something very similar, and more than 50 re-spondents said that the voters expected them to break their campaign promises and would feel betrayed if they kept them. . . .

Sen. Merle Survine, of the Sunken State of Massagravy. said that, as a man of cultivated character, he found it degrading to have to break his campaign promises decade after decade, but that his constituents demanded it.

"The American voter." he wrote. "enjoys inflating himself with the notion that he is morally superior to us politicians. Every time we break a campaign pledge, we confirm the voter's illusion that politicians are lower than he is, and, feeling wonderfully superior, he condescends to go to the polls and vote us back into office so that we can go

on keeping his morale up." Sen. Survine stated that he several more relatives on his payroll, vote for more war, continue lying to the voters of Massagravy about almost everything, have any young people who try to talk to him arrested for disorderly conduct and take any bribes that can be disguised as campaign contributions.

Brasilia as it looks today. At the left, the theater. in the middle, the congressional outlding, at right, the cathedral. There are still no stop signs or traffic . lights on the roads.

All Moved In To Brasilia

By Marvine Howe

BRASHLIA (NYT).—Brasilia, the supreme D monument of modern urban design, has become a real capital, with many of the pleasures, frustrations and flaws involved. For the first decade of its existence there were strong doubts whether this ploneer town, inaugurated in 1960, would ever fulfill its role as an inland capital. Built in the wilderness, 540 miles west of the developed coast, it appeared to many people as a myth or a mistake.

Formal confirmation of Brasilia as diplomatic capital of Brazil took place in Sep-tember when the transfer of all the diplomatic missions from the former seat of government at Rio de Janeiro was com-pleted. The authorities had to set a deadline for the move because resistance was

so strong. Brasilia received popular consecration much earlier, however, and is now a major pole of attraction for the Brazilian hinter-The Federal District, which had a population of 135,000 in 1960, now has 630,000 inhabitants and is expected to surpass a million by 1980.

The city center, laid out in the form of a cross, has one of the most beautiful ensembles of modern public buildings in the world. But Brasilia is not the poetic, functional city of egalitarianism dreamed of by the original planners. In many ways it has gone wrong.

Concept Destroyed

Inflationary prices have destroyed the original concept of self-contained residen-tial districts where all social classes, from maid to minister, would live side by side. Squatters pouring in from the droughtridden Northeast have formed ugly, crowded satellite cities around the handsome capital. Vast traffic jams, serious parking prob-

lems and the highest accident rate in the .. souls," a recently arrived bachelor diplomat country are now features of a city that was built for the automobile.

Some people blame the city's founders—former President Juscelino Kubitschek, the architect Oscar Niemeyer and the town planner Lucio Costa—for lack of realism. Others criticize the federal authorities for deviating from the original plans. The truth probably lies somewhere between.
Public opinion is emotionally divided

about the city but a recent informal survey showed that the partisans probably outnumber the foes. The critics are usually newly arrived un-

married diplomats who don't speak Portu-guese, transient businessmen, close friends of the founding fathers and the people who love Rio de Janeiro so much that they won't give Brasilia a chance.

The admirers include young people, zealous diplomats, migrant workers from de-pressed areas, and the oldtimers who have seen the city grow out of the red mud and

"I cannot bear this city, the empty borizon fills me with gloom," Pomona Politis, who writes a column on society and politics for a Rio de Janeiro newspaper, declared here recently.

Diplomats were generally hostile to the change for a variety of reasons, not the least being the charms of Rio. Air communications are still extremely limited and while telephone communications with the United States are almost instantaneous there are long delays with the rest of Brazil. Above all there was the sheer expense of the move and the lack of facilities.

"The real trouble is that the city is no fun; there's no main street, no place to girl-watch, no corner bars to meet kindred lamented.

The main complaint has been the absence of cultural life. But the embassies are vying to fill the gap. In recent weeks, the French and Japanese have brought top-flight ballet shows and the United States put on a 10-day festival.

The city's greatest crime, in the opinion of one recent visitor, is that pedestrians have apparently been forgotten. Yet there is an increasing number of those hardy souls tourists, civil servants, workers from the satellite cities—who risk their lives daily on the streets of the capital, where there are no pedestrian passages, no traffic lights and few sidewalks.

Already the decision has been made to introduce traffic lights at key congested points and plans for overpasses and subterranean passages are under study.

Despite its faults many diplomats have learned to like the city for its calm, its climate and its togetherness.

"In Rio it was a struggle to get people

out to a cocktail party because there was so much else to do," an embassy newcomer said, adding, "When I gave my first reception here, the attendance was 110." Brig Gen Arthur S. Moura, the U.S. defense attaché, is a solid fan of Brasilla. "I have been able to establish new relations

with people I've known over the years in

Rio but never had the chance to see be-

cause of the logistical problems," he said. Dr. Sigmaringa Seiras, a prominent lawyer, says, "It was love at first sight. This city was made for modern man. Elsewhere the car has become a torture instrument; here it is a pleasure. It has given us more time for ourselves. People work more, study more and have more family life."

Earrings for Men PEOPLE: Making U.S. Comeback

A fast-flowering fad in the States these days is earrings for men, Until recently the custom was confined mainly to some blacks, frankly homosexual males and members of motorcycle gangs. Now it's the thing to do. "It's the latest way to show your in-dependence," said David Hobaden ir., 25, a graduate student at Hunter College in New York. "It used to be only a few men were long-haired, now everybody's long-haired, so earnings are the next step." The men prefer the pierced-ear model, often posts with simple ornaments or precious stones, but dangly ones or have their fans, too. (A glance at the ads in New York papers reveals that shoe heels are moving up, too.) Oh, well, entrings for men come and go. They supposedly went for the U.S. Navy about 50 years ago, but if memory serves, they were worn (one ear only) by plenty of U.S. sailors, all "Golden Dragons," coming back from China service when the Navy closed up shop there in 1949.

Highway hazard: An eight-foot ostrich that escaped from the Kelling Park Aviary at Weybourne, England, while being transferred to a new cage. It eluded pursuers who tried to put it into a horse van Police who issued the warning to Weybourne motorists were assured by a park spokesman who said, There is probably no danger unless someone gets in her way when she runs. She has a kick like a mule."

FINED: French film director Claude Lelouch ("A Man and a Woman"). 500 francs and assessed 2,500 france damages for assaulting film critic Edgar Schneider in a Paris bar.

Sign in a Nashville, Tennessee, veterinarian's office: "Please do not put animals on desk. Receptionist bites."

Egypt's latest effort at hirth control is delighting children. rather then preventing them. During the last three days the state television has been advertising male prophylactics in a new effort to make birth control more popular in a country which is expanding by some million new babies a year. They sell for the equivalent of about one U.S. cent each. However, Al Ahram said, enterprising businessmen

David Holmden ir.

have outfitted the article's question with whistles and selling them to children for the the price, as whistling hale * * *

"I guess we're out of the first husiness now," John Cuthing principal of Buena Vista School, in Saginaw, Mich said as he filled out police said as he filled out police said. in his office Police sai windows were shattered in nearby Saginaw steering plant when a group of pupils ducting amateur rocket res-had one of their homemads siles misfire.

Marton Jack went bird ing, came home by London way and had her bottom; ed. She looked around and jampacked passengers and no likely culprit. But in minutes she endured a barra nips, nudges and occasional ()....ses. When she changed trai Victoria Station, a brown mouse slithered out of the leg of her plants and land the platform. Miss Jac hospital superintendent, "The mouse must have cliup into my trousers when down for a picnic lunchautility went to sleep. I couldn't leave him there on the C Line in the middle of Lond I scooped him up into an lope and brought him hom
